Customer Reviews

A large portion of the material contradicts common knowledge. If you followed this by the letter, people would be jeopardized. If you are stateside, I highly recommend sticking with Kaplan online or even elsevier NCLEX books if you are in a real pinch.

This is the worst tool that you can spend money on. The questions are so out of touch with NCLEX that if you use it you can only hurt your chances of success. My school made it a requirement (Why?), and since they did, their passing grade has gone to the toilet and students are frustrated and angry over this. DON'T BUY. 100% agreement by all the students over 2 years. 4 groups. This is worthless

Bought for my wife - she finds the book to be very helpful in studying for the NCLEX.

good study tool

Very useful, and written to the latest NCSBN standards for the NCLEX. Gives you the ability to achieve mastery across each of the NCLEX specified topic areas while providing opportunities to explore and correct weakness. HIGHLY recommended.
