## Customer Reviews

I really like this book. I used it for an Intermediate Algebra and Trigonometry course and it was perfect! It offers very clear and concise explanations of concepts and very useful examples to clarify things even further!

This textbook is just what i needed for college. I was worried about purchasing online, because I couldn't physically see the condition of the book. But it was better than the description, it was truly in brand new condition!

very good and i enjoyed it very much. It helped a lot. The book was so helpful in many ways.

The book was delivered right away. Very satisfied with the purchase.

High quality text.

Good textbook.
