## Synopsis

REA's Crash Course for the AP<sup>®</sup> Chemistry Exam - Gets You a Higher Advanced Placement<sup>®</sup> Score in Less Time

Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement<sup>®</sup> Chemistry exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP<sup>®</sup> Chemistry is just what you need. Our Crash Course gives you:

- Targeted, Focused Review - Study Only What You Need to Know
- Fully revised for the 2014 AP<sup>®</sup> Chemistry exam, this Crash Course is based on an in-depth analysis of the revised AP<sup>®</sup> Chemistry course description outline and sample AP<sup>®</sup> test questions. It covers only the information tested on the new exam, so you can make the most of your valuable study time. Our targeted review focuses on the Big Ideas that will be covered on the exam.
- Explanations of the AP<sup>®</sup> Chemistry Labs are also included.
- Expert Test-taking Strategies

This Crash Course presents detailed, question-level strategies for answering both the multiple-choice and essay questions. By following this advice, you can boost your score in every section of the test.

Take REA's Online Practice Exam

After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of question found on the actual AP<sup>®</sup> exam, so you know you're studying the smart way.

Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP<sup>®</sup> Chemistry student must have.

When it's crucial crunch time and your Advanced Placement<sup>®</sup> exam is just around the corner, you need REA's Crash Course for AP<sup>®</sup> Chemistry!

## Book Information

Series: Advanced Placement (AP) Crash Course

Paperback: 272 pages

Publisher: Research & Education Association; 2 edition (February 13, 2014)

Language: English

ISBN-10: 0738611549

ISBN-13: 978-0738611549

Product Dimensions: 1 x 6 x 9 inches

Shipping Weight: 10.4 ounces (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars See all reviews (58 customer reviews)

Best Sellers Rank: #7,732 in Books (See Top 100 in Books) #5 in Books > Science & Math > Chemistry > Inorganic #7 in Books > Science & Math > Chemistry > Organic #30 in Books > Textbooks > Science & Mathematics > Chemistry

## Customer Reviews

From the perspective of an AP student: This book is fantastic in preparing you for the exam, or for tests in an AP chemistry class. I used it for both, and it did its job well for both. I will update with my AP score (I am more than confident that I earned a 5) later. This book is to the point on all topics. It tells you exactly what you need to know to solve the problems and explain the concepts (the topic and test aren't all math-based, after all) on both the MC and FRQ sections of the test, and IT MAKES SENSE. This book is perfect for learning and/or reviewing the content, and I would recommend it to someone who's already on track for a 5 who wants to review to ensure their score, or someone who is facing the threat of a 1 and needs to learn as much as possible as efficiently as possible. It has a few practice problems at the end of (almost) each chapter (the extent of these problems depends on how much content was covered in the chapter) that are great for checking your understanding. HOWEVER, this book does not offer enough practice problems to be sufficient alone for anyone self-studying (or anyone intent on improving their score through lots of practice rather than only reading to understand the content). STILL BUY THE BOOK; just pair it with lots of practice problems. Learnerator.com offers a great multiple choice question bank that's FREE for easy and medium questions (difficult questions cost \$10 I think: you can complete some of the free questions before deciding whether or not to pay for the difficult questions) ([...]). Also FREE, college board's apcentral website with released FRQ portions of past AP chemistry exams with grading keys and more.
