Back To The Lake: A Reader And Guide (Third Edition)

Synopsis

A new take on the traditional rhetorical modes, showing how they are used in the kinds of writing college students are most often assigned—arguments, analyses, reports, narratives, and more. Back to the Lake 3e includes new chapters on writing paragraphs and using rhetorical modes in academic writing—which shows how the patterns taught in this book are used in the kinds of writing college students are expected to do. New readings are on timely topics that will engage students. Templates and marginal notes that explicitly link the readings and the writing instruction help students apply the lessons in this book to their own writing.

Customer Reviews

I'm using this book for an advanced writing course at an international business school in South Korea for students who will be studying in the US. I wish this book was available for international export and at an affordable price. I love the essays in this book as well as the coverage of the kinds of essays students would normally write.

The tips included in the book are pretty decent for a beginning English class. I love the short stories and writings that range from serious and deeply personal to hysterical op ed types (think Mindy Kaling!). I groaned when I saw my professor had picked this for class, but I was pleasantly surprised when doing the reading. Overall, quality and entertaining for a textbook.

A wonderful collection. Peter Gerstenzang's *My Education, Repossessed* had me rolling on the

floor.

Has all the information you need!

FaSt delivery! Got what was described in great packaging! I'm a happy customer!
