Infamous: A Fame Game Novel, Book 3

Synopsis

Fame comes at a price. Filming for season two of *The Fame Game* has begun, and star Madison Parker is doing something she never thought she'd do: avoiding the PopTV cameras. She knows Trevor will come groveling and that she'll go back to the show eventually - but on her terms. Fame can turn a girl into a pawn, and Madison knows that's not the life she wants. Fame can turn a girl into a target, too, something her *Fame Game* costars are quickly learning. Up-and-coming actress Carmen is trying to figure out who's feeding gossip about her to the press, and all signs point to someone from her inner circle. Meanwhile, the tabloids have dubbed Kate "The Boring One" but if she's so boring, why is she the one with the boyfriend and a stalker? Help comes from an unexpected place as Madison gives Kate pointers about how to work the reality-TV system. But will Kate take the advice too far? As the girls' careers heat up, so do their love lives, and they each discover that chasing their dreams almost always comes at a price. In the exciting conclusion to her *Fame Game* series, best-selling author and fashion designer Lauren Conrad pulls back the curtain on Hollywood to reveal that being glamorous isn't always pretty.

Book Information

Audible Audio Edition

Listening Length: 6 hours and 44 minutes

Program Type: Audiobook

Version: Unabridged

Customer Reviews

I am a new Lauren Conrad fan! I started the *Fame Game* series because a friend had book one and I was hooked immediately. This third book in the series is great, but not as great as the first two! A long of the action happens at the end of all the books and this one is no different, it leaves you wanting more and salivating for more gossip and adventure. The writing is really well done and

nothing is too far fetched to be believable .. if you're heading to the beach or the pool then you should throw this series on your kindle or in your beach bag because you'll be hooked too!

Lauren Conrad did it again! I have always been a fan of hers since Laguna Beach & I'm happy she's branching out into writing. I may be a bit biased, but Lauren can do no wrong. I love how each series tied well into one another & each left a place in end for more to come. If LC is writing more books, I can't wait for them to come!!

The first two books in the series were better but they followed the same pattern as this one. Boring, boring chapters to fill pages and then BAM, she crammed all the juicy bits in the last chapter. However, this last book was worse because it was boring pretty much the entire book, and the ending was just an abrupt, shallow and tidy few chapters. Lots of drama occurred but there were no real confrontations, they were resolved behind the scenes and mentioned in a few sentences. LC's no dummy (or more likely, those around her aren't) I was manipulated into buying book 2 & 3 because they had good cliffhangers. If you must know how this trilogy ends you'll probably want to buy it. Personally, I felt it was a letdown.

Lauren Conrad is a good author, it's kinda interesting to read about all the things that can go on behind the scenes of reality tv. And I think people like to try to figure out which incidences in the book may have happened in real life as Lauren was filming the series and which are made up. And also who each character in the book resembles which cast member from the tv series. For some reason with this particular book, I have been reading it on and off since I ordered it the night it was released. Ususally I will pretty much read a book start to finish. These books are a good series tho, and I'd recomend buying them. I also like to see how the characters evolve thru the series. Madalyn reminds me of Heidi, only it seems Madalyn may actually have a heart and change for the better. Go ahead and order the book, see what you think!

this series was as addicting as LA Candy.... maybe even more so. I was so sad when I came to the last couple of pages. I wanted more! But I was happy with the way each character's story was wrapped up.

My feelings for The Fame Game series have changed so much since I read the first novel. Now that I've finished Infamous, I have to say that it was great to see the characters grow and evolve, but I

was a bit disappointed by the subdued drama in the plot. Nevertheless, the writing style is very engaging and I just flew through it. When I first read *The Fame Game*, I thought Kate would be my favorite character and expected her to be exactly like Jane Roberts/Lauren Conrad. Maybe Kate was at first, but by the time *Infamous* came around she bore almost no resemblance to the girl I liked so much in *The Fame Game*. Similarly, I really thought I would love Carmen, but she was basically just a backstabbing bitch. One of those girls who thinks they're doing the right thing and honestly does mean well, but is just too selfish to truly care about anyone but themselves. The character that surprised me the most, however, was Madison. I absolutely hated Madison in *L.A. Candy*--she was a selfish, back-stabbing social climber. These qualities never fully disappeared in *The Fame Game*, but Madison evolved into a much more compassionate and caring person. We see why she put up so many walls and was willing to do whatever it took to ensure her success. She was by far my favorite character in the series and she had the most depth. Those who read *L.A. Candy* will remember all of the drama that occurred--Jane Roberts constantly being betrayed by everyone, on camera surprises, etc. Where was that in *Infamous*? When I finished reading *Infamous*, I was actually thinking to myself, "is this the really end?" because nothing really happens. It does put a nice bow on all of the plot lines, but that's really it. There were hardly any new story lines and the ones that were there were surprisingly boring. While *Infamous* was sufficiently lacking in the plot department, I really enjoyed seeing where the characters ended up--particularly Madison. Even though the plot wasn't great, the writing kept me entertained and I didn't really want to put the book down. The ending was so lackluster that the series is practically begging for a fourth book, but since all of the plot points have been resolved there isn't really any place for a sequel to go unless there is an entirely new spin off series.
