# Super Shark Encyclopedia

## Synopsis

Super Shark Encyclopedia uncovers the secrets of the oceans by exploring a remarkable array of 80 sharks and other sea creatures — from Barrel Shrimp to Blue Sharks, Starfish to Bat Fish, and Hammerhead Sharks to Sandtiger Sharks, plus surfing penguins, deep-sea monsters, rays, eels and more. Packed with jaw-dropping facts about animal behavior and anatomy, new x-ray artworks utilize cross-sections and strip layers away to show key anatomical features in detail. It showcases record-breaking animals, such as the deadliest predators and the most venomous creatures, and explains how and why their bodies work the way they do. With its combination of spectacular photography and clear yet authoritative text, Super Shark Encyclopedia is the ultimate visual guide to the oceans' most incredible stories.

## Book Information

Hardcover: 208 pages

Publisher: DK Children (June 2, 2015)

Language: English

ISBN-10: 1465435840

ISBN-13: 978-1465435842

Product Dimensions: 10.2 x 0.8 x 12.1 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars — See all reviews — (26 customer reviews)

Best Sellers Rank: #39,965 in Books (See Top 100 in Books) #11 in Books > Reference >

Sciences > Animals > Marine Life #42 in Books > Science & Math > Nature & Ecology > Oceans & Seas

Age Range: 8 - 12 years

Grade Level: 3 - 7

## Customer Reviews

Super Shark Encyclopedia truly lives up to its name - beautifully presented, mountains of facts, and information intelligently ordered to make this a book children can grow with - from basic information suitable for grade school interspersed with more detailed information useful for older kids/middle school. It's the type of book that is so incredibly well done that it should be in every library and school. Certainly, it's a fantastic home resource as well. Although the focus is on sharks, other deep sea creatures are also presented. The book breaks down as follows: Amazing anatomy (discover

what makes ocean animals ideally suited for their environment - fins, tusks, teeth tentacles, colorful camouflage, spines, etc.). Animal athletes (jumpers, flyers, surfers - from boxing with crabs to thrashing around with a thresher shark). Life stories (survival techniques from krill/safety in numbers to parrotfish covering themselves in slime). Supernatural senses (some animals have extraordinary abilities - from sensing electrical signals to detecting light that other creatures can't see). Exploring the deep (all the incredibly strange and fascinating creatures at the greater ocean depths). While parents and kids may at first be interested in the shark aspect, there really is so much more here. Illustrations, photographs, call out boxes (e.g., 'California horn shark at a glance, including size, habitat, location, diet) help tell the story. There are fun facts, interesting comments, and a slew of very interesting tidbits. But it is rarely presented in block paragraph form - instead everything is presented brightly and in creative and engaging ways that encourage young readers to devour the topic.
