## Customer Reviews

I have an "interactive bulletin board" outside my classroom and purchased this poster for the bulletin board. The students loved it and it generated a lot of discussion. Many of my students go fishing with their families, so it was wonderful to see them identify the different fish. The pictures are good and I know I will be able to use it in the future. It is a long poster but I was able to accommodate it.

another reviewer indicated it was an odd size which I noticed after I ordered so I was pleasantly surprised it was standard poster size, excellent quality.. very traditional but nice enough to hang in any room, we love it!

This is an excellent poster. It is very lifelike and not cartoonish like others. It looks great in my living

room and helps to identify freshwater gamefish. It's just missing salmon, which we get in the creeks in northwest Indiana from Lake Michigan.

I saw this framed in a doctor's office and looked for it online to give to my 15 yr. old grandson. Delivery was quick and the poster is colorful and interesting. I have yet to get it framed, but very pleased with the purchase.

this is a beautiful full-sized poster. I strongly suggest doing it justice by framing it. the unappreciative recipient of this beautiful poster took duct-tape and unceremoniously stuck it to their trailer-trash living room wall! I love the drawing quality and hope the colors stand up to direct sunlight!

Bought this for my grandson who is developing into quite a good fisherman. Now he can identify what he catches.

This is what I expected. My young sons enjoy studying it as we are learning to fish together.

Nicely done and it shows fish I'm likely to encounter.
