Pathfinder Player Companion: Melee Tactics Toolbox

Synopsis

Dive straight into the heart of combat with the Melee Tactics Toolbox! Featuring tons of never-before-seen rules options including new feats, equipment, spells, and magic items, this sourcebook contains everything you need to go toe-to-toe with Golarion's most dangerous foes. Whether you're guarding your party's spellcaster from hordes of goblins or wrestling runaway criminals to the ground, the Melee Tactics Toolbox is your go-to source for tips, tactics, and much more!

77%Basics-Why do it from afar when you can hurt them up close! Melee Tactics Toolbox provides every up close and personal character with several new options ranging from spells, items, feats, class options, and even new archetypes much like every other player companion product.
Mechanics or Crunch-This is a major crunch book for players, but I wasn't amazed. There are several new options, but nothing here immediately made me want to build a character based around that theme. Some of the new options seem like new expectations just for expansion sake as the archetypes underwhelmed me like the rogue archetype that strips out all the rogue powers that make a rogue a rogue. Nothing here is objectively bad, but it's not as amazing as I expected. 4/5
Theme or Fluff-This book has a bit of theme, but

not as much as I wanted. You get a few bits and pieces but not near as much as the world books the Paizo puts out. It feels light. 3.5/5 Execution- This book has a ton in it, but it feels a bit overstuffed. There are many things in the book, but it feels a bit like things were thrown in because of the melee thing and that was the sole reason that they made the cut. So, things didn't flow as well as other books. Also, much of the execution was a bit off as there were a few too many walls of text to really draw me into and through the book.
