This book empowers you with the wisdom of how to ensure you have the cosmic protection of angels. Angels are there ready and waiting to help us, but we have to make the call, if we don't ask they can't intercede on our behalf. From traveling protection, helping overcome addictions to making positive changes in your own life and world situation, Archangel Michael is an angel no soul or family should be without! This book is a must for all spiritual seekers!

A pocket size book with basic information that you can use right now to contact and enlist the help of Archangel Michael and others of this realm. I like the idea of talking out loud and the phraseology of asking for help. Someone I talked to about speaking out loud to Archangels used this knowledge to help one of her animals heal overnight. It's a typical Prophet pocket book with good information.

Half way through "I Am Your Guard (Kindle Edition)", I took out my notebook and began copying the prayers and decrees that are included in this book. I'd know about how Archangel Michael is

associated with protecting those who call on him, but I never knew just how powerful this angelic being can be. I've copied several of the prayers from this book into my notebook and plan on using them! I enjoyed reading many of the first-hand stories of how Archangel Michael came instantly to various people's aid.

For a long time I'm an avid follower of the classic books and authors and most of the time sticking with the classics and choose them over the modern ones (like Dr. Joseph Murphy over Wayne Dyer, Napoleon Hill over Brian Tracy, Eileen Caddy over Neal Donald) because of their clean and direct approach and their sincerity. Lately I started to interest in Angels. And I was looking for a classic about them. I couldn't find it (I'm open to suggestions also) the closest book I've seen on the store was this one. However even though I've felt this is what I was looking for, I put the book on the shelf and left. After a couple days, I've felt regret and went there and couldn't find the book. Strangely enough the people on the store never even know about the book. After almost two months I've found the book by "chance" on a very small book store close to where I live. And started to reading it. The book is great, it tastes and feels like classics. Not too long, I really don't like new self help and spiritual books over 1000s of pages without any substance and valid point. They just write and write filled with anecdotes and stories. Elizabeth Clare kept it simple and direct and really short anecdotes which adding more power to the main subject of the text - just like Florance Shinn. Its content is very rich with lots of great information. I'm really enjoying reading it... I've always been person with faith. Not religious at all but I have a strong faith. So the content of the book is actually talking to me, and I feel like I'm reading the things I already know and forgot. I hope everyone can benefit from this book. Because life is not all about earn money, spend money, get in to debt, pay the bills, eat, sleep and survive. Life is more than that... And these kind of great books will help you on your journey. Heaven and Hell is HERE and in NOW. Choice is ours...

Wonderful. Make Archangel Michael a part of your life. When you are planning to do a deep, rather long prayer session it is good to start by surrounding yourself with the protection of Archangel Michael. A powerful, protective Archangel who answers our calls.

This book has comforted my boyfriend. It reminds us all that we are not alone and that there are people up above who care about us all. Another popular book in this series is "The Violet Flame."

It reminds you that you are not alone and that all you need to do is call on Archangel Michael and

his army and they are there.

I bought this book for myself and have re read it several times or just open it up and catch a phrase to help calm me.Great little book to pass out to friends and family.
