Exalted Aspect Book Air

Synopsis

The Azure Children of Mela Sorcerers, savants and theologians of the Petitioner of Clouds, the Aspects of Air are the intellectuals and magicians of the Dragon-Blooded Host. Yet, these formidable Exalts are far more than scholars. With their deadly intellects and devotion to the Dragon of Strife, Aspects of Air are some of the Host's deadliest warriors. Foolish are those who fight against the wind. The Tempestuous Knives of the Wind Aspect Book: Air is the first Aspect Book for Exalted -- books detailing the different aspects of the Terrestrial Exalted. Herein are told the stories of five members of the aspect, from those who have just graduated secondary school to the musings of the venerable Tepet Arada. This book also contains Charms, rules and artifacts that Air-aspected characters need to claim their roles as sorcerers and soldiers of the mind.

Customer Reviews

This book continues White Wolf's line of "splatbooks", smaller sourcebooks which take a subdivision of playable characters and expand upon them. Ideally for the player, this means they have new insight into a character type. Ideally for White Wolf, this means people will buy the book. All cynicism aside, though, this one actually IS quite good. A small note beforehand makes it clear why worship of Mela, the Air dragon, is most widespread among those who worship the five immaculate dragons. And the characters themselves are largely interesting. Medalus is something of an exception, mind, but he has an interesting family background. The others, though, manage to have interesting personalities or plot hooks: Kes is a gateway (read: chess) master, super-spy, and idle noble with the best of intentions. Arada is a general who once could have become emperor after the

empress disappeared, soured on the Realm. Elana and Kasif are likewise workable characters, with plot developments in the near future that would be fascinating, if they were actual player characters. I highly suggest this book, if you want to look at the Exalted Splats. The game as a whole, though, comes highly recommended from me, so I may be biased.
