I've been bombarded with study systems from colleagues and friends, but what I found on my own did the trick. The best feature of the NCE Flashcard Study System is the amount of knowledge contained in one paragraph of the study card. They didn't just answer the test question, like so many other systems, and then move on. They placed in the first sentence of each answer what the answer is based on and individual's names that "founded" the theory or collaborated on the subject together. These are the answers that the professors are looking for. Not to mention that the way they formatted the study cards gives the student enough space around it to add their own teacher's notes on it. Print is clear and clean. As a former graduate student, it's easy to look back and just regurgitate a basic answer or fact. It's quite another to be able to explain a subject in a conversation successfully, a decade later; all from memory of this one exam. This system allows you to KNOW it.

Want to ACE your NCE? Get this system. Period.

flashcards offer a unique way to study, that is different from other study materials. There are a lot of people for whom that is the best method of studying. This set of flashcards also condenses what they need to know. For me it works and works well, better than thumbing through a whole volume to get the information I need, this just helps me to retain the information which is the main thing.Recommended

The flash cards are not short answer questions and answers by any means. It's more focused on definitions, clusters of names, and information. It's more streamlined that many of the other books and does a good job of isolating topics into manageable portions.

It's nice to have these written out for me When I have so much going on.... It would be nice if they with a box.... Nothing I cannot get on my own

These flashcards have great questions, but I was somewhat disappointed by the fact that they were so lengthy. It was more like a study guide written on a smaller piece of paper rather than a traditional flashcard. Overall, they were very helpful and I'm glad I purchased them.

Use these flashcards for the National Counselor Exam to help you get that score you're seeking. They are complex enough to enable you to provide a complete answer but are written in simple enough terms to not confuse or irritate. The cards are compact and easy to travel with no matter the destination and taking them along with you increases the opportunities you have to study.

I purchased the flashcard set 3 weeks prior to taking the NCE, just to have a quick and easy way to study those last few weeks. I liked that the content was written clearly and concise. The content areas of the test were certianly detailed in the flashcards. The cards reminded my of information that I did not remember from my studies and added details to information I did. Thanks, I passed the first time I took the NCE!
