Barron's SAT Subject Test: Math Level 2 With CD-ROM, 12th Edition

Synopsis

This manual opens with a diagnostic test that includes explained answers to help students pinpoint their math strengths and weaknesses. In chapters that follow, detailed topic reviews cover polynomial, trigonometric, exponential, logarithmic, and rational functions; coordinate and three-dimensional geometry; numbers and operations; data analysis, statistics, and probability. Six full-length model tests with answers, explanations, and self-evaluation charts conclude this manual. The manual can be purchased alone or with an optional CD-ROM that presents two additional full-length practice tests with answers, explanations, and automatic scoring. Customer Reviews

I am a Harvard graduate, SAT perfect scorer and professional test-prep tutor with 18 years of experience, and this is my go-to preparation book for the Math 2 SAT Subject Test. Of course, you should also buy the Official Guide, which includes 2 real tests: The Official SAT Subject Tests in Mathematics Levels 1 & 2 Study Guide. This book includes 7 mock practice tests, including the diagnostic test, along with answer explanations, as well as an in-depth review of the many concepts

that are required understanding for the Math 2 SAT Subject Test, and practice questions ("exercises") that pertain to each lesson. It's also affordable, and the questions are high-level difficulty...which might be a tad unrealistic compared to the actual test, but which provides excellent preparation for the many advanced high-school math topics (up to Pre-Calculus) that might show up on the Math 2 test, such as Functions, Polynomials, Logarithms, Polar Coordinates, Complex Numbers, Vectors, Matrices, etc. Are the questions perfect? No. Are the answer explanations perfect? No, not even close. But it's the best, most rigorous practice for the Math 2 exam, and includes plenty of helpful math strategy. Best of luck with your preparation! [...]--I will be sure to respond.

Very difficult questions, but great if you are aiming for a good score!

It is AMAZING
