Customer Reviews

A friend gave me these cards for Christmas and I've been organizing and decluttering (improving my Ch'i) ever since! They really work! The little book that comes with the cards very succinctly explains the philosophy of Feng Shui and how to incorporate it into your life. There's a card for every room in your home and a before and after picture of a room that has been made Feng Shui complaint. I highly recommend these to anyone seeking to get orgazined or simplify your life!

Thanks, Angie!!

Beautiful color photos on one side with easy to read text on the other side. A booklet comes with it

explaining feng shui basics. Cards cover a wide variety of topics including specific areas of your life (career, children & creativity, love & marriage, fame & recognition, wealth & prosperity, health & family.) These cards are full of good ideas to enhance your life. Enjoy!

I own and have read several books on Feng Shui, but never really "got it." This simple deck of cards pulled it all together for me. For the first time I understand what had been a complicated, intricate system for which I hadn't the time nor intelligence. Terah Kathryn Collins' writing is unique in this field -- simple, concise, relevant -- and it just flows. The beautifully illustrated cards and little booklet are a perfect introduction to this subject....and a great gift item. They show how easily Feng Shui can be relevant and useful in creating positive changes in one's life. I plan to get all of Collins' books on this subject -- and toss the rest.

I used this as part of the gift pack for my best friend on her birthday. She's hugely into Feng Shui, but did NOT have these cards as a guideline. She opened them immediately and started working on decorating her apartment the next day.
