Arctic Dreams

Synopsis

Barry Lopez's National Book Award-winning classic study of the Far North is widely considered his masterpiece. Lopez offers a thorough examination of this obscure world-its terrain, its wildlife, its history of Eskimo natives and intrepid explorers who have arrived on their icy shores. But what turns this marvelous work of natural history into a breathtaking study of profound originality is his unique meditation on how the landscape can shape our imagination, desires, and dreams. Its prose as hauntingly pure as the land it describes, Arctic Dreams is nothing less than an indelible classic of modern literature.

Customer Reviews

"Arctic Dreams" was recommended to me by a friend before I went on an Alaskan adventure a few years ago. This book expanded my vision of nature, and turned me on to the exquisite writing of Barry Lopez, who won the 1986 National Book Award for this classic work on the wild regions of the far north. "Arctic Dreams" is an extraordinary celebration of Arctic life and landscape which takes the reader on a journey to places rarely visited by man. Lopez' narrative does have a dreamlike quality, not only in its descriptions of nature at its most surreal, but in the absolute beauty of the writing itself. He does indeed capture the foreign reality of Arctic life, and death, with the loving care of an artist who places each brushstroke carefully on a canvas, bent on bringing the vision before him to others.Mr. Lopez made a number of extended trips to Siberia, Greenland, and northern Canada, including Baffin Island, to observe the flora and fauna of the region - polar bears, killer whales, caribou, narwhals - as well as the spectacular Arctic landscape. He experienced eerie

encounters with the aurora borealis, massive migrating icebergs, solar and lunar light, halos and coronas. And he experienced both the potential for catastrophic danger and the remarkable beauty that the Arctic land and sea offers. "Spring storms can sweep hundreds of thousands of helpless infant harp seals into the sea" - juxtaposed with, "A tiny flower blooms in a field of snow touched by the sun's benevolent light." Through Mr. Lopez' eyes the breathtaking experience of the Arctic landscape and the people who inhabit it become palpably real.
