# True Bigfoot Encounters: Eyewitness Accounts Of Sasquatch Saving Humans

## Synopsis

Bigfoot Saving Humans Enjoy 11 Amazing Accounts of Friendly Sasquatches It is my belief that Bigfoot is much more human than not. I believe this is apparent from the thousands of amazing accounts that paint a broad picture of the shy and reclusive creature's character. The accounts vary from brush-ins to terrifying and violent to amazing and peaceful. After writing several books detailing the violent side of Bigfoot, it is long overdue that we acknowledge this amazing creature's more gentle side. Within this book you will discover 11 different peaceful Bigfoot accounts. Some of these accounts span years while others detail amazing rescues where Bigfoot saves a human being from certain danger or death. Come with me as we turn the page and discover the beautifully peaceful and empathetic side of Bigfoot. I hope you enjoy this book of true Bigfoot encounters; Sasquatch Saving Humans

## Customer Reviews

This is very interesting book on Bigfoot. It has collection of Bigfoot stories. Though these experiences are scary, I enjoyed reading this book. The really horrifying stories these are. I like all the stories and enjoyed my time to read it from start to end. I highly recommend this book to all horror stories lovers. The author has done hard research before he is writing this book. This bigfoot stories tell us more about ourselves. well written book.

I had a debate with friend who claims he really saw bigfoot. I just don't buy it and then he kept on giving me some articles from the Internet claiming he's real and all but I dunno. Just sounds to me

like those ancient hoaxes that never die. And then he showed me this book which I understand came out recently. I had to take a look because why is still relevant today? lol While this book didn't convert me to the bigfoot faithful, I found it to be a lot better than all the junk articles because these so-called "eyewitness accounts" paint bigfoot in a more positive light. It almost reads like a parody and well given how much I make fun of him, I like it! And there are numerous stories too!

I honestly think Jeremy did a lot of research and put a lot of efforts to create this very well detailed Bigfoot's encounters. The theories he put in the table is very well written and looks accurate. Even though it is my first time reading a book in this topic I still enjoyed it. It is really worth spending my time reading this book.

This book has immediately hooked my attention the first time I read it. I find it really interesting. This is so much better than other stories. Inside of this book I have found a variety of True Bigfoot stories. There is a lot of history in here about the search for Bigfoot that can help a modern investigator understand the background of what has gone before. Some of Jeremy's views may be a little controversial but it is definitely food for thought.

This book was a really good basic review of the Bigfoot phenomenon. It covered a lot of ground. One of the best books on Bigfoot and other similar creatures in all parts of the world that I have read. Very informative. This to me is really an effort to address the History of Bigfoot around the world and by region. It is a well researched effort with a great deal of information covering early sightings and encounters with Bigfoot. I enjoyed this book. Excellent read!
