The 5th Wave (Book 1 & 2)

Synopsis

Rick Yancey's blockbuster bestsellers *The 5th Wave* and its sequel *The Infinite Sea* are now available in a boxed set—just in time for the release of the major motion picture of *The 5th Wave*. In *The 5th Wave*, Cassie finds herself in a world devastated by alien attack, desperate to save herself and find her lost brother. As the onslaught from the Others—the beings that look human and kill anyone they see—continues, Cassie's mission is to stay alone and stay alive. But then she meets Evan Walker, who may be Cassie's only hope for rescuing her brother—or even saving herself. Cassie must choose: between trust and despair, between defiance and surrender, between life and death. In *The Infinite Sea*, the heart-stopping action continues as the situation gets even worse for Cassie and the rest of Earth's remaining human survivors. No one knows the depths to which the Others will sink, nor can they imagine the heights to which the human spirit can reach as they face the ultimate test. Included in this Collection: *The 5th Wave*, *The Infinite Sea* "Remarkable, not-to-be-missed-under-any-circumstances." —*Entertainment Weekly* "Wildly entertaining . . . I couldn't turn the pages fast enough." —Justin Cronin, *The New York Times Book Review* "A modern sci-fi masterpiece." —*USA Today*

Customer Reviews

My son is not an avid reader but when he finds a book that he likes he won't put it down. These books were just that. He couldn't put them down until he was finished. Needless to say he is 11 years old and when he chooses a book over other distractions it must be good. Great job Yancey

for writing books that attract and keep those young readers.

OK so I don't even know we're to start.....hmm....let's just say this book was PERFECT. It kept you at suspense and it changed from point of views so we got a sneak into both main characters view, which is an awesome change instead of reading in the same point of view over and over again. I loved how there in parts. Sometimes can get a bit confusing but other than that it's perfect, I can't wait to see the movie. Keep up the great work author, love your story's! ã Â Â^Â

Great book and has been read by several family members now. I haven't seen the movie yet as I wanted to read the book and so did some of the other family members. Comes with cardboard sleeve to store the two books and I can say while these aren't my favorite books of all time they are very good and well written.

I ordered this yesterday and it's already here it was so fast and when I started reading it I loved it I can already tell it will be one of the best books I have ever read.

I bought this set for my 11-year-old granddaughter who thinks reading is a chore. Thank goodness the school requires 20 minutes a night. She has enjoyed these books very much and usually keeps reading after the timer goes off. She's anxious to read the third book which just came out in hardcover.

I was interested in this trilogy but super worried about buying these books because many of these reviews stated that this book was written poorly. Some said that it sounded like it was written by a 16 year old. Some were weirded out by the fact that Evan Walker cared for Cassie. Sooooo, I decided to make up my own mind. I thought, why not? Here is my opinion: First of all, the main characters' POV sound like they are written by 16 year olds because it is in the POV of 16 year olds. But they were not in any way stooping so low to me where I thought it stupid. Secondly, this was written beautifully to me. It had its twists and turns and events that I never did see coming. There was a surprise around every corner. In the second book it was a little more difficult to get into because it starts off with a secondary character taking "the front seat" but stick with it. Once you get into it, you won't get out if it..... Ever. You'll start these books as a normal person and finish them as a crazed half human searching for the next book. The characters were so dynamic. When Vosch would speak in the second book you would believe everything that came out of his mouth. He would

make you really think of who the real bad guy was. I do warn the parents reading this: the language in these books are pretty course. I wouldn't give these books to a 13 year old. Your call, not mine. Again my opinion. Anyways, I hope that this review helped! I'm sitting here writing this review and hoping to find a hold-me-over book until The Last Star releases.

Love the books waiting for the 3rd one to come got it ordered here, love these type of books, would recommend kept me reading and guessing. Can't wait for the 3rd one to come but not until May. Makes a person wonder if this could happen.

I fell in love with the movie and there was not much difference reading what happens in the book compared to what happened within the movie. Although there are several quirks that the movie producers changed to keep the movie from being so long, these quirks added character to the story. Like for example, there was no other "Other" sniper that shot Cassie but our very own Evan. What?! Shut. Up! Right? So this detail, along with several other juicy tidbits, are expressly book-only but I concede I do enjoy the movie although another tidbit is that Evan and Cassie never had sex. I know, what? But in the movie, they get their spank on. I know, but Cassie retains her virginity and there have been many instances where they could have made love but don't. I think it has a lot to do with the reading audience, but either way, Evan and Cassie find love and that is something the movie emphasizes and one of the main principles of the book. I am eager for the movie production of The Infinite Sea. And you will have THAT title defined in the reading of the book.
