Eye Of The Oracle (Oracles Of Fire, Book 1)

Synopsis

What ancient mysteries lurk behind the amazing stories in the Dragons in our Midst series? Eye of the Oracle takes the reader back in time to the days when dragons abounded. From the era just before Noah's ark, through the battles between dragons and mankind in the time of King Arthur, and to the haunting presence of dragons in our day, this stunning prequel reveals the mysteries that led to the bestselling fantasy adventure that began with Raising Dragons. How did dragons survive the flood? Who helped preserve an ancient evil force that led to the dragons' demise in the days of King Arthur? What heroic sacrifices kept that evil from exterminating the dragon race forever? If you enjoyed the heart-stopping action and spiritual depth of the first four books in this series, you won't want to miss the astonishing story that began it all. Eye of the Oracle will captivate young and old alike, and it will challenge every reader to search deep within for answers to the mysteries in their own hearts.

Customer Reviews

This was my first novel of Mr. Davis's. As I had heard that Eye of the Oracle was actually a prequel of his earlier series, Dragons in the Midst I decided to start with it. I was immediately impressed to find several things I really love in a good novel. 1.) being thrown into the action quickly--Eye of the ORacle sets us smack down in the middle of a dragon attack upon a villainess you'll not soon forget!2.) Superb writing--Mr. Davis's prose flows as smoothly as Bing Crosby singing Silent Night.3.) The unexpected--Eye of the Oracle seamlessly weaves a tale of dragon heroism into the

Biblical narrative. We begin just before the flood with the Ark in preparation for its fateful journey upon the waters of God's judgment. In the midst of this, Mr. Davis blends the familiar biblical persons with many we've not heard of before. New demons, Nephilim, Anakim giants, are all thrown into this epic brew with characters from the King Arthur Legend as time progresses in the story. Davis throws twists at us we would never expect, like Merlin as a prophet of God...WOW! It all boils down to marvelous storytelling and the kind of heroes you'd be proud to sit down and share night after night reading with your own children. Eye of the Oracle delivers on every level, folks and I for one have been transformed into a FAN!--James Somers: author, The Chronicles of Soone.

This is one of the best books I have ever read. Eye of the Oracle begins before the Dragons in our Midst series starts. It is a much more complex story than DioM, and adds a whole new angle to the original series. These books are up there with Lotr, Narnia, The Scarlet Pimpernel, and Stephen Lawhead books.(All of which I recommend by the way.) This was an awesome read and can stand by itself. but those who have read the previous books may glean more from it. Readers of the other series will get extra insight into Dragon's Rest, Bonnie, Shiloh, and (Duh) Oracles of Fire. Please do not miss out on this wonderful book!-E

Volume one of the Oracles of Fire series, which in turn is a prequel to the Dragons in our Midst series, Eye of the Oracle is an epic fantasy novel about the tension between dragons and mankind, from the era just prior to Noah's ark through the time of King Arthur to the modern day. In Eye of the Oracle, dragons are targeted by the machinations of an ancient and ruthless evil force, and only the sacrifice of noble heroes prevented the dragons' complete extermination as a species. An enthralling saga of good against evil, and great deeds achieved by individuals of courageous and faithful spirit.

A friend of mine lent me this book after he finished it. Truthfully, I was skeptical. I'm a fantasy novel/game type of person, but it seems that a lot of fantasy novels are like sci-fi, a good book is one in a thousand. Here's the one in the thousand. Bryan Davis masterfully wrote this book, with a strong storyline, that follows multiple plots, and still keeping interest, and not getting jumbled together. I couldn't put this down. It was almost the same as when "Deathly Hallows" came out after a 3 year wait. I look forward to reading more Bryan Davis novels, and I doubt he will let me down, with his writing prowess.

This book is amazing! Bryan Davis takes his readers to a whole new world that has dragons and parallel worlds and the never ending story of Christ's love for all his children and creations. This book is meant as a prequel to the series of Dragons in our Mist, and the first part of the book attests to that fact. The middle and the end give glimpses as to what happened "behind the scenes" for the Dragons in our Mist series. This book can be read before or after the Dragons in our Mist but should definitely be read before reading Enoch's Ghost, as there are things that happen in this book that are referenced in the next one. I can promise that this is worth both the time and the money to get this and is a much loved and added collection in my library. Both on my kindle and in trade back!

Bryan Davis has created a masterpiece that readers of all ages can enjoy. The book is very unique in the fact that it combines fantasy and Biblical events. Everything fits together so neatly that you wonder 'Is this actually real?' The intriguing plot is so lovely in its complexity. I love the spirituality in this book...I actually learned new things about the Bible that I had never known before! I have read this book countless times, it never gets old. Every time I read it again I catch something in the plot that I had not noticed during previous readings. This book is flawless, it should be read by everyone.

As I closed the last page (my third time reading it through, by the way.) just the other day I let out a long hard sigh. Something about Eye of the Oracle really gets me thinking. The amazing power of God, and how he can take such small events, and what seems like such insignificant people and things, and turn it all out for his good, is awe inspiring. And that is what Eye of the Oracle did to me. And there is one part in the book that I especially enjoyed, when God opens Sapphira Adi's (one of the main characters) heart and shows her his mercy and love. It was beautiful. Just absolutely beautiful!The book starts with the Flood (Noah and the Ark), goes to the Tower of Babel, then to the era of King Arthur until finally it reaches modern day. So much happens in those pages, but it's most certainly not your normal, run-of-the-mill christian fantasy book, it's so unusual, and I think that's why makes it so wonderful to me. I've never read a fantasy (or any other fiction for that matter!) book like it. It brought me along with it, and I understood the characters, and what they were feeling and what they were going through. I felt their pain, joy and sorrow. And I loved them all for it. And the depth of the writing, it's spectacular!People kind of raise an eyebrow at me when I say that the characters in books are some of my favorite friends, but it's true. And especially with Eye of the Oracle. Please read it. You won't regret it!!
