Customer Reviews

My daughter was a science major in college and fell in love with this book which she shared with me. I tried as a mother to instill in both of my children a deep love and respect for nature. They got it! This book is amazing and exquisitely written!!! The way in which the author describes his observations of nature is extraordinary. I leave this book out so that I may pick it up at any time and read another passage. One of the most beautiful books that I have ever read.

Any outdoor person can appreciate the wisdom offered here. Not much "preaching", learn by shared observations. Even more relevant today!

Such a classic. Beautifully poetic. Mary Oliver or Aldo Leopold...which came first? Walden of course.
