Trianimals: Color Me Wild: 60 Color-by-Number Geometric Artworks With Bite

Synopsis

A unique color-by-number coloring book featuring 80 vibrant animal faces designed in the popular low poly 3-D geometric style. Create dozens of beautiful, lifelike animal faces with this irresistible color-by-number book. Graphic designer and illustrator Hope Little uses a distinctive low poly graphic style to fashion clean, contemporary three-dimensional designs made up of hundreds of triangles—an approach to organic subjects that gives them a modern aesthetic that is also relaxing to color. Each picture in Trianimals comes with a numbered color palette that can be used as a guide for consistently creating amazing finished pieces. All are printed on heavy paper stock to ensure that whatever medium you use—whether ink, marker, or paint—doesn't bleed through. The pages are also perforated, making your artworks easy to remove and display. In addition, some of the pages are also perforated around the image so that it can be pressed out and made into a mask for parties, games, playtime, Halloween, birthdays, and more. Relax and take your creativity to the next stage with this gorgeous color-by-number coloring book!

Book Information

Series: Trianimals

Paperback: 96 pages

Publisher: Harper Design; Clr Csm edition (June 7, 2016)

Language: English

ISBN-10: 0062484516

ISBN-13: 978-0062484512

Product Dimensions: 9.5 x 0.4 x 9.4 inches

Customer Reviews

Things I look for in a coloring book:1) I prefer the pages to be single sided to reduce change of bleed through and affecting whatever design might be printed on the back - this book utilizes both sides of the page.2) Coloring books should either have a lay-flat binding, appropriate margin at the binding to accommodate comfortable coloring and/or should be perforated to facilitate coloring.

While this book indicates it has perforated pages, it does not appear that all pages are perforated for

easy removal AND there are several designs that occupy two facing pages - these will be difficult to color indeed as the design descends into the binding region. There are a variety of animal designs and I do like the palette suggestions. I expect I will get a fair amount of coloring time out of this book.

This book had me intrigued before it had even released. I waited and waited for it to be released-finally, the day came for the release. I was *not* disappointed! This book has some very challenging pictures, do not be fooled into thinking this color-by-number is for children! They even provide you with both a natural palette or a vivid color palette to choose for each picture. The beginning of the book shows examples of what the natural color palettes will turn out like. At the back of the book, there are 8 different masks to color and cut out, making it exciting for even the little ones to be involved! Overall, I am extremely happy with this purchase and I would definitely recommend this!

This is a beautiful book! Bought it for my 10-year old daughter to work on during our family roadtrip. She is so excited to get working on it. I love that the artist gives you two color scheme options: natural and vivid.

You must have pencils of many different shades to color. The pictures are on both sides of a page, so you can't use markers. There are some useless mask pictures. Still I liked that for every picture you're offered two palette variants.

Definitely not easy and very difficult to match the colors in the palettes with actual colored pencils, but love the drawings. Very realistic and relaxing.

Paper is not thick enough to keep markers from bleeding through. This book could be fantastic if pictures were on their own paper.

Great pictures - much more fun than flowers or patterns.

It's an excellent adult color by numbers book - I love the vibrant suggestions.
