Dawn-Breakers (Japanese Edition)

Synopsis

Dawnbreakers is the most comprehensive and authoritative eyewitness account of the beginnings of the Baha'i era. A reprint of the 1932 original, and full of wonderful features, this book is a necessity for any serious scholar of Baha'i history. If you desire fullest details, then read this sourcebook on the dramatic events which inaugurated the promised dawn, foretold in all the Sacred Scriptures. Central is the Figure of the Blessed Báb, '...matchless in His meekness, imperturbable in His serenity, magnetic in His utterance...', as it documents the tragic and triumphal events, fueled by a visionary and sacrificial heroism which He alone inspired. Words and events were related first hand, Nabí-i-Azím by many eye-witnesses and participants in this Divinely inspired and short-lived period, which cleaved the clouds of entrenched tradition, and prepared nothing less than the long awaited dawning of the Ancient of Days.

Customer Reviews

This book was originally written in Persian. The English translation was done by Shoghi Effendi.

This edition says the translator is Motoko Caldwell. Motoko Caldwell translated the book from English into Japanese. And one other reviewer said the book had "Arabic" script (Persian is written with an Arabic alphabet). Yet the book has an English ISBN and the description says it's in English. A friend of mine ordered the English version of the book and received the Japanese version. So, have someone straighten out these issues. There are people who read Japanese who would love this book. For those of us who read English we need a copy that we can read. This book is, by the way, one of the most moving and awe-inspiring stories ever written. I'm teaching a 36 hour course
