Seductive Poison: A Jonestown Survivor's Story Of Life And Death In The People's Temple

Synopsis

Told by a former high-level member of the Peoples Temple and Jonestown survivor, *Seductive Poison* is the "truly unforgettable" (Kirkus Review) story of how one woman was seduced by one of the most notorious cults in recent memory and how she found her way back to sanity. From Waco to Heaven's Gate, the past decade has seen its share of cult tragedies. But none has been quite so dramatic or compelling as the Jonestown massacre of 1978, in which the Reverend Jim Jones and 913 of his disciples perished. Deborah Layton had been a member of the Peoples Temple for seven years when she departed for Jonestown, Guyana, the promised land nestled deep in the South American jungle. When she arrived, however, Layton saw that something was seriously wrong. Jones constantly spoke of a revolutionary mass suicide, and Layton knew only too well that he had enough control over the minds of the Jonestown residents to carry it out. But her pleas for help--and her sworn affidavit to the U.S. government--fell on skeptical ears. In this very personal account, Layton opens up the shadowy world of cults and shows how anyone can fall under their spell. *Seductive Poison* is both an unflinching historical document and a riveting story of intrigue, power, and murder.

Customer Reviews

Writing a review of Deborah Layton's "Seductive Poison" is not easy for me, because I can't think of any words that will be superlative enough to do justice to this book and to compliment the author on being so courageous and for so eloquently sharing intimate details of her experience of life in and her escape from a destructive cult. I didn't know *anything* about cults or anything about Jonestown

for that matter (I was not only too young at the time these events took place but also literally on the other side of the world) till a few weeks ago when I feared that someone who I loved and still love dearly may be in a cultic group. A search on led me to Deborah Layton's book and reading Seductive Poison combined with the events happening concurrently in my life can only be described as a life-changing experience. Deborah Layton's account of life in and her escape from Jonestown is the most moving of any personal accounts I have ever read and I will admit that there were parts of the book that had me in tears... which says a lot. When I first read this book I was convinced that the book is just that... it's *a story which happened to someone else* and things like this don't happen today...until I started experiencing the effect of a mind-control group first hand -- happening to someone very close to me. If you ever do the mistake of thinking that this cannot happen to you... be sure to catch yourself, because 23 years later, after Jonestown, after Waco, after Heaven's Gate and numerous others... it's the same mind-control techniques and the same deceit and debauchery that is just as much prevalent today as it was then and potentially even more refined than it used to be.
