## Customer Reviews

I took the AP global exam last year using the Barron's review flash cards and got a five. This year I bought these cards instead to see how this brand would be, several problems with this set: 1. Cards are flimsy 2. Cards are generalizations, not too specific. Little information. 3. The cards don't seem to have any particular order, and rather they jump around more than my 6th grade English essays, and that's just bad. 4. There's no division of the cards, you can't take just one section of US history as a study, you have to pull out every card involving it. In the end, not worth it, go with Barron's, I may just buy those instead...

This is great. My kids use these all year. There is a book with questions also and I got both. They go between the book and the flash cards to study. Great resource for high school. Fast delivery.

My daughter took the exam this past spring and received a FIVE on the exam! I totally recommend these flashcards to AP students

excellent!

About 25 cards were missing from my set, and some were kind of bent

I love it. It's a very helpful study tool for the AP US exam
