Customer Reviews

In preparing for the Masters exam I ordered the ASWB study guide and was extremely disappointed. However, these cards are awesome they cover theory, vocab and situations. FYI the flash cards come 6 to a sheet all together, once a part they are around 200 cards or so.

I just recently achieved a Master of Social Work Degree and purchased the Flashcard Study System in preparing for the LMSW examination. I have found these cards to be very helpful in all four categories of what one can expect in taking the exam (Assessment and Intervention Planning; Direct and Indirect Practice; Human Development, Diversity and Behavior in the Environment and Professional Relationships, Values, and Ethics). Janice H. - NYC resident

This product was better than the "Secrets of MSW Exam" book (which was completely useless), but only slightly. I found the material a little more relevant to the intermediate exam, but the Pearson's material is better in my opinion.

There's a lot of information that you need to master in order to pass this exam. Plus your future career is riding in the balance! So why not give yourself every advantage that you can? When you get these cards, you'll have a really slick set of cards that give you all the information and knowledge that you need to have at your fingertips. Using them makes studying fun. You can flip through them, skip ahead or go back anytime which is great. It helps break up the monotony. Plus the detailed answers will explain the things that are unclear in your mind. It's really a win win because you get to test yourself before the actual exam. There's just no better way to prepare yourself. The cards are well made and look good. The design makes them easy to read and work with. And their portability factor makes it very convenient to study on the go. These cards are created in such a way that concepts are intertwined and if you don't pick it up the first time, you'll clue in quickly as the themes are retold in different ways. That's a helpful strategy for remembering. And the more you use them, the easier it becomes to memorize what you need to know. Overall, these cards are a great value and will help you get through a tough exam with ease!

The information on the cards is correct, I've been using them to study and I feel semi-confident that I know my materials. My only complaints are that you have to separate the cards yourself and that the cards are basically paper. It would be nice if they came already separated and maybe laminated.

I like how the flashcards are separated in to categories; Assessment and Intervention Planning, Direct and Indirect Practice, Human Development, Diversity, and Behavior in the Environment, and Professional Relationships, Values, and Ethics.

After reviewing the flash cards and quality of questions and answers that have been provided I feel confident that I will be to use this product to gain the confidence, knowledge, and preparedness to complete the exam.
