Crystalline Transmission: A Synthesis Of Light (The Crystal Trilogy Vol. 3)

Synopsis

This volume reveals a whole new dimension of crystal awareness, offering guidelines and instruction on how we, as human beings can become as clear as the crystals and develop the full spectrum of the rainbow ray body. The crystals are tools and teachers demonstrating how to materially manifest perfected form. Katrina focuses on how we can align ourselves with the perfect cosmic geometric grid of light (as the crystals so purely demonstrate). This would literally change the frequency at which we vibrate. Emphasising planetary peace, specific information is given to assist individuals in stabilising their personal identity within their own lighted centre of truth, thus establishing entirely new concepts of being. Introduced for the first time are crystals and stones that facilitate this process, the final six Master Crystals and a pure Crystalline Transmission through the writing itself. Included are: specific stones and layouts for individuals suffering from or prone to AIDS; crystals that facilitate the activation of new Chakra centres; tantric layouts for couples; stones and crystals for protection against nuclear radiation; dematerialisation in action; encoded crystals - the cosmic alphabet; crystals and stones for the new race of beings birthing onto the Earth; and, information of many new stones and crystals to serve our unfoldment in the 1990s.

This is Volume III (1990) in a series of 3 very well written and very useful books by Katrina. Volume I is "Crystal Enlightenment" (19xx). Volume II is "Crystal Healing" (1987). You probably want to read these volumes in order unless you already know some of this crystal and energy stuff. Volume III is

a little more "out there" but only to those who are new to this stuff. I guess you could say that Volume III is for the person with some crystal and energy knowledge already. Assuming you know about the 7 chakras (energy centers/wheels within the human body), Katrina refers to 8 to 12 (major) charkas, 3 above the crown charka, one in the belly button (in addition to the one in the solar plexus), and one below the root charka. There are also secondary charkas in the palm of each hand, and other places (which those who do energy work already know). Katrina talks about the predominant power stones: selenite, kyanite, calcite, and hematite and layout using the. She provides information on additional crystals: the Dow crystal, the Tantric Twins (crystal), the Isis crystal, the Cathedral Lightbraries, the Devic Temple crystals, the Time Link crystals and additional healing stones: Blue Lace Agate, Celestite, Charoite, and others. There is even a chapter for crystal healing for the prevention and treatment of Aids. If you are really interested in stones and crystals and their possible relationship to healing, knowledge and so much more, I suggest this series of all 3 books by Katrina. I also suggest "Love Is In The Earth" by Melody. Yes, that is her name, just like music. Once upon a time, I laughed at the thought of people believing crystals were more than just rocks. Now I have wisdom. (We all make mistakes.)
