Customer Reviews

As a cross-reference tool for determining the underlying causes of an ailments, I've found this book to be quite insightful, if not ahead of it's time. For example, I found it very interesting that many of Edgar Cayce's remedies included methods for dealing with digestion-related problems, elimination of accumulated toxins, and restoration of a person's acid/alkaline balance. These factors are increasingly being found to be connected to many of the same diseases that Cayce referenced in this book, from asthma and gallstones, to cancer. In my opinion, his readings went far beyond ordinary common sense, particularly for his day.

This encyclopaedia is a labor of love. It is the easiest, most painless way of finding what Edgar Cayce, the father of holistic medicine, had to say about what ails you. Just look it up alphabetically from Acne to Xeroderma. Should be on the bookshelf of everyone who is interested in Alternative medicine. Lawrence M. Steinhart, author Edgar Cayce's Secrets of Beauty Through Health.

Because Edgar Cayce did not remember any of his healings which were conducted while in a trance like condition, his secretary faithfully wrote every word as they were being prescribed. Because of her dedication to him and his work we have accurate and precise records of each healing. Patients would write back or call and tell him of the success of his medical advice and in that way he was able to continue knowing that his "guides" were trustworthy. Being interested in herbal healing and believing in the ability of certain people to attune themselves to the "other world" and information beyond our present abilities, this collection of just some of Cayce's many healings are educational and remarkable. Cayce had no formal training in medicine allowing his gift as a chairvoyant to help hundreds of people. An interesting book for anyone who wants to learn more about alternative healings and who has an open mind about psychic phenomenon.

The Author, Reba Ann Karp, has beautifully indexed remedies that are safe and effective from the celebrated Edgar Cayce Readings. This book offers numerous remedies for a great variety of ailments, as well as suggestions for achieving optimum spiritual, physical, and mental wellness. I now have lost 30 lbs., have glowing skin, and have developed a general positive outlook. I recommend this unique book to everyone who desires to better their health and healing with alternative medical knowledge.

The amazing thing about Edgar Cayce was the range of information presented during his channelings. Not only did he correctly forecast many major historical events, he also suggested various kinds of healing as well as remedies for specific illnesses. This book focuses specifically on Edgar Cayce's theories on health. Presented decades ago, many of his theories concerning healing have currently been given great credence.

Please read about this extraordinary man. In this healing you will be very surprised at all his recommendations. He is unique and I tell everyone to get it because you will use it as a reference book.

However I must say it's a shame there's very few of his remedies currently available for use today. That's what I'd initially bought the book for...some helpful hints on how to be more naturally healthy so...although it was a fascinating read...it wasn't exactly what I was looking for....BUT I will keep it in my library as an occasional health reference nonetheless.

I am totally satisfied with , quality of the product and delivery to my home.....however, having been a student of Edgar Cayce for many years, this book lacks any helpful information...my disappointment was in the value of the information..it wasvague, not really getting into healing methods. thanks , nothing against you, others may love it...j'net
