Too bad it's out of print now. The book was given to me as a Christmas gift, as I am a professional tarot reader and book collector. I have been looking for something like this to add to my collection for years now. The section on palmistry is excellent. I was able to hit on some very accurate points with a friend using the book to read her palm. I can't wait to try and read the tea leaves. I will certainly be reading this from cover to cover more than once. A great reference material for the novice as well as the professional.

This book was excellent rarely have i seen a book of its caliber it clearly states everything that you would want to know i highly recommend this book to anyone.

This book has a great history and is a must have for anyone interested in Astrology, the Occult, mysticism, etc. It's an old book, but it isn't dated really. It's a good read, and very informative. It's a great Title too.

Thoroughly enjoyed it. For me, it was very educational. Being a student of life, this was right up my alley. I didn't know what to expect so, it was an adventure for me.

An absolute classic.

This book is full of occult practice explanations. It is a 'How-To' book. Very interesting read.

This is a great book to have on your occult library is very informational about things no magical recipes is just information to a better understanding

This book is taking me on a wonderful journey...still in the first book and it has given me several spiritual keys....
