"Angel Therapy is a powerfully effective and safe healing modality that helps you release fears or other emotional bocks, receive guidance about your life purpose and other issues, and heal your body and life." - From the companion bookletIn her twelfth oracle deck, metaphysical therapist Doreen Virtue offers yet another tool enabling individuals to forge stronger connections to their angels, obtain angelic guidance, and gently heal energetic blockages. A 44-card deck edged in the now-customary shiny gilt, Angel Therapy Oracle Cards strongly features Archangels Michael and Raphael, but also encompass a wide-range of healing and empowering themes.From cutting energetic cords to healing addictions, clearing the chakras to manifestation, each of the Angel

Therapy Oracle Cards depicts an instructive message below vibrant artwork, with the card theme at the top. Here are a few of the themes and messages from this deck:\* You Are Profoundly Clairvoyant - Trust what you see in your mind's eye as well as with your physical sight, for your spiritual vision helps you with healing, teaching, and guidance.\* Release - Work with Archangel Michael to let go of what no longer serves you or your purpose.\* Indigo - The person you're inquiring about is an "Indigo", meaning a highly sensitive, natural-born leader.\* Books - Your life purpose involves writing, reading, editing, or selling spiritually based books.\* Shield Yourself - Protect yourself from harsh or fear-based energies by envisioning a cocoon of healing light surrounding you.\* Power Animal - Your animal spirit guide is a guardian to you and is helping you with this situation.\* If You Get Nervous, Focus on Service - Put your entire intention on answering the question "How can I make the world a better place?" and the Law of Attraction will automatically take care of your needs.\* Past-Life Issue - This situation has a basis in one of your previous lifetimes. Ask your angels to help you remember, release, learn, and heal from your past experiences. The 135-page companion book elaborates on each card meaning, and provides a brief overview of deck clearing, consecration, preparing for guidance, and performing readings. Because all of Virtue's decks are the same size, you can even shuffle them together for enhanced combined readings. As with her previous deck (Magical Messages from the Fairies Oracle Cards), the gorgeous artwork in the Angel Therapy Oracle Cards is quite cohesive compared to earlier decks, displaying paintings from seventeen different artists whose bios and websites are mentioned in the back of the companion booklet. (I was thrilled to see two paintings from one of my favorite artists in this deck--U.K. artist Josephine Wall). My only problem with this deck, as well as a few recent Hay House decks, is that the top of the box (glossy finish) is far too snug; it's as if all the air has been compressed out, making it very difficult to open. I was unable to open this box at first, so I asked my husband to try. After a few minutes of struggle, he couldn't open it either! (We didn't want to handle the box too strongly with fear of damaging it.) Finally, after inserting a butter knife around the edges and numerous attempts at teasing the lid off, I was successful. However, I'll have to store this particular deck in special bag for easier access. (Those who have arthritis, carpal tunnel syndrome or severe tendonitis will have great trouble opening this "healing" deck unfortunately...) have used the Angel Therapy Oracle Cards three times already and, despite thorough shuffling, received amazingly consistent and insightful advice about paying attention to dream symbols and my frequent clairvoyant images (drawing the Your Are Profoundly Clairvoyant card each time). I think this particular Virtue deck is one of the most (if not THE most) attractive of them all, with particular emphasis on equipping individuals to blossom into the highest version of themselves, as well as

highlighting innate gifts, opportunities for service, and forms of psychic protection. Angel Therapy Oracle Cards also identifies restrictive perspectives requiring release and relationships that may need tending, as well as ways of holistic healing. I highly recommend this lovely deck to those who enjoy Doreen Virtue's approach, as well as therapists, healers, teachers and seekers desiring to elevate consciousness, alleviate suffering and nurture the whole person. I am a huge fan of Doreen Virtue, and have several of her decks. I started not to buy this one because I was afraid it would be repetitive, since I already have 3 of her other decks. (It isn't.) It has the gold edges just like her Ascended Masters deck. I am an experienced reader, and I have a hard time being objective when I do tarot readings for myself. This is not a tarot deck, and it has obvious meanings that don't change when combined with other cards. I love using it for myself, and I am also going to use it for clients, who are very drawn to card decks with gold edges.

I just ordered this deck not seeing many pictures of the cards. I opened the pack, looked through the deck and did a little meditational one-card reading for guidance for the day. I realized my thoughts were on the topic of lightworkers and that I felt I had the characteristics of one but wished I had confirmation that yep, that's me.I got back to focusing on picking a card from the deck that was my angelic message for the day. I closed my eyes, picked a card, turned it over and it was "Earth Angel - You are a lightworker who has come to Earth to teach about love."This was my first reading with this deck and I just flipped out. Getting that card was absolute confirmation that my thinking was on track. This exactly answered my question!These cards seem to answer the most spiritual questions you may have. Of course I highly recommend them!

I really love these cards. At first I wasn't sure I was going to like it all that much, mostly because of the strong tan color of the cards and seeing some of the pictures of the art work I didn't like very much, but I decided to purchase anyways because of all the different subjects these cards include on them (will get to that later in the review) and because of the action steps and these cards were basicly calling out to me. When I purchased, the shipping was super fast and came in a great condition! The feel of the box is smooth and sturdy, actually I had a bit of trouble opening in it up at first! Really liked the box image and illustration and the gold. The booklet is nice and thick and chock full of information about the cards and action steps to take if you get the card. Now what I really

loved is the golden edge on the cards (like most of doreens decks) and the feel of the cards. They are actually sturdier (stiffer/harder) than some of doreens and hay house oracle decks wich was really nice. Once I looked through the whole deck I decided I really really liked them! The energy of the cards was very peaceful and positive and They were more beautiful than I thought they would be, and I actually didn't mind the strong tan color anymore (it's one of my least favorite colors). There are still some images that I don't really care for for the artwork, it just doesn't look very professional or kind of looks like an amature did it, but hey maybe that's just their style of art work. But most of the images are really beautiful!Now on to the kind of "subjects/topics" the cards portray. This deck is pretty diverse spiritually I guess I would say, it has a balance of spiritual/physical and mental topics and offers guidance and advice on each topic. Some of the categories and sub topics in this deck include: Chakras (base, crown, etc) Spiritual and physical beings (ascended masters, parents, Earth angel etc)Psychic (mediumship, you are profoundly clairvoyant, etc)Life purpose (books, seminars, etc)Physical (crystals, singing and dancing, etc)Psychic clearing and protection (cut your cords, shield yourself, vacuum away fear)Mental/Emotional (Integrity, be willing to forgive, etc)and many more!As for readings, I've done guite alot since I got them about a week ago for others and myself, and they have been really accurate! And the action steps in the booklet have been really helpful also. Overall I really enjoy these oracle cards, if you want really diverse oracle cards for healing and to better yourself spiritually and physicly I would recommend these.
