Thursday's Child

Synopsis

Sonya Hartnett's haunting, mythical novel - now in paperback Harper Flute believes that her younger brother Tin, with his uncanny ability to dig, was born to burrow. While their family struggles to survive in a bleak landscape during the Great Depression, the silent and elusive little Tin - "born on a Thursday and so fated to his wanderings" - begins to escape underground, tunneling beneath their tiny shanty. As time passes, Tin becomes a wild thing, leaving his family further and further behind. With exquisite prose, richly drawn characters, and a touch of magical realism, Sonya Hartnett tells a breathtakingly original coming-of-age story through the clear eyes of an observant child. It's an unsentimental portrait of a loving family faced with poverty and heartbreak, entwined with a surreal vision of the enigmatic Tin, disappearing into a mysterious labyrinth that reaches unimaginably far, yet remains hauntingly near. "Will be treasured by teens. . . . A beautiful and complex coming-of-age story that will burrow into young people's deepest hopes and fears, shining light on the darkest rooms." - BOOKLIST (starred review)

First of all, where on Earth does this novel take place? Thursday's Child is set during the Great Depression and so, being an egocentric American, I naturally assumed it was in the American Great Depression. But then I was confused because the characters all had Irish or Scottish accents. I read what someone else wrote about Thursday's Child and they said that it takes place in Australia based on some subtle clues in the text like local flora and place-names. That makes sense since Sonya Hartnett is a native of Australia, but do a lot of people in Australia have Irish accents? Well,

at any rate, Thursday's Child isn't about the place, and it isn't even about the times so much; it is definitely about the people. Regardless of where they live, or how they speak, these are human beings just like you and me and it is easy to sympathize with them as times go from bad to worse. Our main character is Harper, youngest of the family at the beginning of the story. Little Harper doesn't know anything about depressions but she knows that times are tough and she can see how it is affecting the various members of her family. Through Harper's eyes we witness first-hand how one setback after another wears away at the resolve of her parents until they begin to withdraw, leaving the children mostly to fend for themselves. It is the final, climactic tragedy that strikes the family that finally wakes the parents up. Sonya Hartnett had her first novel published when she was just 15 years old and it's been full speed ahead ever since. It's easy to see why so many people like her books. Sometimes I read a book and only get fuzzy, gray images of what the author is trying to describe, but Hartnett's pictures come in sharp and clear and in full color.
