# A Coloring Book For Adults And Children - Secret Village: Extra Large Edition - Beautiful Underground Houses, Secret Cottages And Garden Hiding Places (The Most Beautiful Coloring Books) (Volume 1)

## Synopsis

SALE! Normal Retail Price \$12.50 Secret Village... "The first thing I noticed was the feel of the books. They had a nice thick waxy feel to the front covers. It probably sounds crazy, but I liked that feel more than some other books. The cover seems strong enough to open and close many times, and thick enough that it won't tear easily." "Inside you open it to black and white, which is the point of it because it is a coloring book. You get a beautiful picture with tree's with cute little doors and windows and then flowers and leaves." Turn the page and you get tall trees with intricate swirls in them and again the cute little doors. Nesteled in the tree's is a sly little fox." "I began my coloring on the 3rd page. At the top you see foliage, mushrooms, butterflies and flowers. There is a teeny little door and then the big feature is the sort of maze inside. It's like a little world for small people, or animals, or whatever your imagination comes up with." "Honestly just paging through the book I could spend hours looking at all the little pictures and my imagination running wild with stories of their house. I can just picture a little teeny something sitting at those small chairs, someone curled up by the warm fire, someone going about in the kitchen, and maybe a little someone nestled in the bed. All these little details are perfect for a coloring pencil or marker. The first 6 pages are back to back, so it may be better to use a coloring pencil. Then the rest of the pages have blank spaces in between so you could use a fine point marker, or gel pen." "What I like is that there are also what looks like close up shots of the little house. So say you aren't in the mood for fine detail at the moment, you could always pick one of the close up shots where the black and white spaces are a lot bigger and easier to navigate. On the opposite side of the detailed little houses are little drawings of gadgets, leaves, flowers or animals. There are tons of different things to color depending on your mood. Maybe you are only in the mood to color flowers, or leaves, there are big pictures of them throughout the book. I have a fondness for all the little house pictures. I love all the details of tables, chairs, stairs, beds... and you will love the inside of these little worlds."

## Book Information

Series: The Most Beautiful Coloring Books

Paperback: 104 pages

Publisher: CreateSpace Independent Publishing Platform (December 31, 2015)

Language: English

ISBN-10: 152299985X

ISBN-13: 978-1522999850

Product Dimensions: 8.5 x 0.2 x 11 inches

Shipping Weight: 11.4 ounces (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars See all reviews (50 customer reviews)

## Customer Reviews

I loved the idea of this book...tiny villages and pleasant drawings. This book is terrible. It is very obvious that some drawings were shrunk down and some were really enlarged. The width on the black lines varies significantly and the print also varies (some lines nice and dark and other pages have much lighter gray lines). Many pictures are cut off a lot and some pages are dedicated to just an acorn...or a couple of flower pots. The feel of the cover of the book is a waxy feeling that feels like it'll come off on your fingers. On the back of each set of blank pages, they have a bunch of languages that say you can color each page with marker or pen. I would like to believe that that is common sense, considering it's an adult coloring book with blank back pages. I own MANY adult coloring books. This has become a favorite past time of mine. I own a Harry Potter one, Doctor Who one, all of Johanna Basford's books, all of Millie Marotta's books, and a couple random ones like Animorphia. This is the most disappointed I have been in an adult coloring book. I recommend staying away from this one. I have requested to return this for a refund from .

This is the larger version of the pocket version. It appears some of the pictures were enlarged and now no longer FIT on the page... not all of them, but some of them. That is rather sad and more care should have been taken to assure the print job was done with size in mind. The pictures are still very cute with lots of underground tree homes etc

^ This is the most inexpensive therapy in existence! I love this book! See my video!

This is a fabulous book! I love all the images. They are both whimsical and cute. The artwork is amazing. I saw one reviewer complain about the paper quality, but my book has good paper in it. It is a nice grade of paper typical of most coloring books. I already colored two pictures in this book and had no problems what so ever/

Really like concept of faires & there houses, the details here are great. Only problem is each page is

leaning either right or left, maybe trees aren't always straight but that means the tunnels and rooms are leaning. Every time I open the book I think "crooked"

After coloring 2 pictures in this book, and trying to find something for #3, I'm bored. There are a lot of pages but the difference between pictures isn't much. I was hoping for more than just underground tree houses. I like a lot of variety in my coloring pages. If you do too, this probably isn't the book for you. But! if you don't mind the monotony, and love the subject matter of tiny underground burrows, then this would be for you. :)

Cheap print job on even cheaper paper. Ink smeared in a lot of places where they didn't let it dry and once again cheap paper. Some turned out a gray color like the printer was running out of ink and though some images (like 6) printed nice, most looked like an old dot matrix was used. The cover has a very weird waxy type feel like someone colored with crayons and didn't laminate. I am so disappointed as I was really looking forward to getting this book. Please Sarah Brown, hold yourself and your publishers to a higher level than just blowing up old images and printing them warped and poorly the cheapest way possible. 2 stars is only because I liked the idea of how the images should've come out.

I am really enjoying the Secret Village coloring book. I am one of the people who like to send the greeting cards with the little creatures like mice or birds dressed as people, and I love Wind In The Willows, The Borrowers and The Littles. This is a very imaginative coloring book that features underground lairs and tree stump homes. There are little nooks and crannies to color and tiny bedrooms tucked way underground amidst tunnels and burrows. I think this is just a cute book all the way around. There are a few pictures that have been blown up where you get larger sections of the same picture. This doesn't bother me-some pics are tiny and detailed and others are blown up where you color a bigger section of a creature's comfortable home. If I had a complaint, it would be that there are no creatures in the pictures-no mice making tea or tucked into bed, all the houses are empty so it reminded me of an apocalyptic secret village. Some double spreads feature a fox or mouse on the opposite page of a picture, but the rooms and areas are void of life. That's my only complaint. I really love the art work in this book. It's very imaginative and creative. I have only used pencils so far in this book and I find the quality very good for the medium.
