# A Tale Of Two Pipers (Charmed)

## Synopsis

While Darklighters threaten to steal true love magic made a wish go wrong: Where two are, once was one -- but two does not mean twice as strong. Too much work and no time for play have made Piper a major stress case. When a seemingly harmless wish comes true, creating two Pipers, it looks like the problem's solved. Two Pipers can do twice as much work, leaving one Piper to party the night away and the other to finally have time to relax. While one Piper's home baking, the other can give an interview. Two Pipers? Too perfect. But soon it becomes clear that two heads -- and bodies -- aren't always better than one. When Darklighters kidnap Leo and hold him hostage in exchange for the Charmed Ones' powers, one of the Pipers doesn't even seem to care. And then both Pipers' powers fade, leaving them useless and sick. Phoebe and Paige scramble to find a reversal spell, but without Leo's help, and with Piper split in two, will the Power of Three become powerless?

## Book Information

Series: Charmed

Mass Market Paperback: 208 pages

Publisher: Pocket (May 4, 2004)

Language: English

ISBN-10: 0689868502

ISBN-13: 978-0689868504

Product Dimensions: 7.1 x 4.3 x 0.6 inches

Shipping Weight: 4.8 ounces

## Customer Reviews

I have only just started reading the book and I love it!! Like I said in another review I did, I would love to meet Holly Marie Combs because I think that in the show she has the hardest life of the three sisters and because in another book where she does a personal interview she shows me and everyone who reads the book that she truly cares about the teenage girls that watch her show!! I think she is a totally awesome person and I would do absolutely anything to meet her in person!!

In my opinion this book is the best among all the Charmed books. It's funny and it focuses on Piper. Unlike other Charmed books in which a lot of "strangers" are introduced, this book focuses highly on the three sisters and Leo. I really enjoy this book and would recommend those who loves Piper to read this book.

This book was right on the money as far as Piper's personality. She is always struggling within herself between what she wants to do and what she has to do. I feel the writer truly understood that before she wrote this book. I felt pulled in, I felt a part of the story. It was like watching one of the shows. There wasn't too much stupid humor like the author just wanted to prove to her audience that she knew the Halliwells. Instead, it was perfect. Loved it. Great plot, exceptional writing - great flow!! Would definitely buy books by Emma Harrison again!

THIS BOOK WAS AWSOME!!!! thought this was the best charmed book that I have read (even though they didn't do an episode for it) And it really showed what Piper was feeling with all of the trouble she was going through. I love Charmed (as you probably can tell) and i really thought you were kind of in the book in the way that the author wrote this book. I would totally recomend it to other people.

I bought this book solely based on the fact that the story was revolved around Piper instead of Phoebe or Paige. Good book but it sounds kinda like the episode "Which Prue is it anyway".

I did thoroughly enjoy this book. Good story. And really excellent for Charmed fans wanting another taste of the universe after have finishing the show. My only critique is that the author was EXTREMELY repetivite with her vocabulary. Some descriptions were extremely repetitive, more so during the second half of the book. This book describes the feeling of everyone's hearts' (whether dread or happy) a little too much. The adjective 'diplomatic' was used quite a bit. BUT, if this was my biggest and only critique then that should tell you the book is good. Definitely recommend it :)

this is a great charmed book i mainly like the fact that it focused mainly on leo and the "four" sisters plus the elders who everyone has a love hate relationship with in the series are involved quiet a bit in this story. basically piper doubles her self and take full advantage of it (as we all would ) one staying at home relaxing the other one out there the life of the party. this of course leads to quiet a

few laughs i think this is one of the best charmed books released for a while even if the ending is slightly see through. good read

**\*SPOILERS\*** You have to understand the show, the characters, and what the author was trying to say in order to really appreciate this book. The author wasn't portraying Piper as an "I'm going to do whatever I want girl!", she was saying that was a side to Piper that was there, but never got to come out. Piper was split in two so a part of her personality went one way and the other part went the other way. The thing is, Piper comes across as an extremely level-headed, very balanced character on the show, but she does have that part of her that yearns to do whatever she wants--i.e. the part of her that went against every rule in the book and had her date and marry Leo. Don't forget that Piper had other boyfriends besides Leo and she did want a life all of her own (let's not also forget that she was with a very hot fireman after Leo "divorced" her). Piper wasn't completely stuffy, but she did want a normal life and I guess that's what made her seem a bit more reserved than Paige or Phoebe. When Prue was around she was always playing mediator, but when Prue died she had to suddenly become more grown up, the oldest sister, more responsibility. I think in a way Piper was always my favorite sister and I think the author did a wonderful job with her character in this book. For those who were saying that the other Piper didn't hold any of her attributes, you're wrong, and either you don't watch the show diligently or you just don't get it. I've heard this was the best book out of all the Charmed books and I've never bought or read another (I bought this one years ago). Every true fan of Charmed should own this book.
