# The Dresden Files: Welcome To The Jungle

## Synopsis

When the supernatural world spins out of control, when the police can't handle what goes bump in the night, when monsters come screaming out of nightmares and into the mean streets, there's just one man to call: Harry Dresden, the only professional wizard in the Chicago phone book. A police consultant and private investigator, Dresden has to walk the dangerous line between the world of night and the light of day. Now Harry Dresden is investigating a brutal mauling at the Lincoln Park Zoo that has left a security guard dead and many questions unanswered. As an investigator of the supernatural, he senses that there's more to this case than a simple animal attack, and as Dresden searches for clues to figure out who is really behind the crime, he finds himself next on the victim list, and being hunted by creatures that won't leave much more than a stain if they catch him. Written exclusively for comics by Jim Butcher, *The Dresden Files: Welcome to the Jungle* is a brand-new story that's sure to enchant readers with a blend of gripping mystery and fantastic adventure.

## Book Information

Hardcover: 160 pages

Publisher: Del Rey/Dabel Brothers (October 14, 2008)

Language: English

ISBN-10: 0345508599

ISBN-13: 978-0345508591

ASIN: 0345507460

Product Dimensions: 6.9 x 0.6 x 10.6 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars [See all reviews](#) (162 customer reviews)

## Customer Reviews

First, I'd like to address some of these more negative reviews. Yes, it is a comic book, not a novel. But the idea that "hoodwinked" anyone is ridiculous. The book has listings of its sales ranks and has for a while, and it is listed under "graphic novels". Additionally, it has TWO authors listed, not just Butcher, and the picture used to advertise the product has it clearly depicted at the bottom

"ILLUSTRATED BY..."So you whiners who think pulled one over on you are just too lazy or stupid to read the product description. Additionally, this is a PREQUEL, so people whining about this and that not looking right or not addressing larger issues brought up later in the series, it is as it should be based on his Pre-Stormfront days. It is also funny people whining about how it looks, maybe Butcher is just a liar and he writes forwards to sell his product, but according to his own introduction to the book, much of what is depicted is close to how HE sees it in his mind. So he seems to like it and being that he created the characters that is good enough for me. It is a joke to say that "comics are for kids and books are for adults". Come on, the Dresden Files is good, but it isn't as if you have to be above the age of 10 to read and enjoy them, and Harry Dresden (and Jim Butcher) are comic fans (Butcher himself even says he has always seen the Dresden Files as an Animated Cartoon) so Harry translates well to the medium. As to the product itself: I found it a thoroughly enjoyable Dresden Files mini-adventure. It is 132 Illustrated pages detailing a Dresden adventure just prior to the start of Stormfront.

I wasn't going to write a review for this book originally, but seeing the pile of unfair negative reviews, I thought I'd add my two cents to bring the rating back up. The primary complaint people seem to have is that this is a graphic novel. Yes, readers, this book really is a graphic novel compilation of an original 4 issue comic series by Jim Butcher. If you don't like graphic novels, don't buy it. And if you categorically don't like graphic novels, please stop reviewing it. I hate rap. I don't write reviews on rap music. I would be horribly biased and wouldn't know what I was talking about. Any item should be evaluated on its own terms, not based on flaws with the company selling it. If you feel you were misled, then return the product. Complaint number two seems to be that the book has no ties to the current Dresden Files plot lines. This book is a prequel. It is set before the beginning of the series. Butcher did it as a side project for a bit of a break, he hasn't forgotten his current plotline. As a prequel, the book stands well on its own, and introduces the characters of Harry, Murphy, and Bob reasonably well. The story is tightly contained, and the only possible flaw is that Harry & Murphy's relationship seems better than it was in the first few books where she was always arresting him for something. The illustrations are beautiful. I'm not fond of the cover art, but that's not the style used on the interior, which is more lush and less photoshop-ish. I have one small problem with the artist representations in that Harry is drawn too short and Murphy is drawn too tall. This is most noticeable when they're in the same frame together. Murph is 1-1/2 feet shorter than Harry, but in the comic she's as tall as his shoulder, about 1/2 foot shorter than he is.

"Like any jungle, it is a world of predators and prey. Some of the most dangerous creatures in the world live here. Very few of them are in cages..." Having appeared in bestselling books and on TV, detective/wizard Harry Dresden now has his own comic book series, the four-part "Welcome To the Jungle". And it loses nothing in translation -- author Jim Butcher wonderfully preserves the sharp, witty, literate fantasy-noir flavour of his books, which is brought to colorful life with Ardian Syaf's solid artwork. This is one to keep an eye on. A mangled corpse is found outside the monkey house, but the facts don't add to the "gorilla attack" the city wants. So Murphy calls in Harry Dresden (who was killing a Rawhead and Bloody Bones), and after casting a spell to see what killed the man, Harry knows it definitely wasn't a gorilla, especially since the man filled his opponent with bullets before dying. Unfortunately Harry only has twenty-four hours to find the culprit. And as he starts poking around the gorilla house, he and nervy zookeeper Wil are attacked by bespelled jungle cats, and later by the Big Bad Black Spectral Dog. Harry suspects the mysterious Dr. Watson, but has no idea of her true plans -- or her true monstrous nature. I'll give it to Jim Butcher -- not only can the man pen two vastly different series and assorted short stories, but he can turn out a pretty thrilling graphic novel prequel. Though "Welcome to the Jungle" is a short work, it's still crammed with action, monsters, magic, and a unique new supernatural threat that Harry alone can deal with. Basically, what one expects of the Dresden Files. The plot is a pretty straightforward one, and most of the first quarter involves Harry poking around at the zoo.
