[Animals](#) #3282 in [Books > Science & Math > Nature & Ecology > Fauna](#)

Grade Level: Preschool and up

Customer Reviews

My son, now 2 years old, has loved all the "Busy" books by John Schindel since he was about 18 months old. He especially loves Busy Piggies, Busy Penguins, Busy Doggies and Busy Kitties...goes through them almost daily still. Now he loves Busy Barnyard...the photos are great! Unlike the other books, Busy Barnyard has a wide variety of different animals: cows, chickens, horses, goats, geese, pigs, rabbits, cats and lambs. Fun for both kids and parents!

I have purchased several of the books from this series and every one of them has been excellent. A great addition to any toddler library. Real photographs are so much more meaningful to very young children and these are clear, vibrant, lend themselves to lots of conversation about what we're looking at in the photo.

I am rating strictly on what my kids ask for us to read over and over. Barnyard doesn't get the requests or excitement that Busy Doggies and Busy Penguins get. We love the busy series, but would recommend those two first.

What do farm animals do all day? Well, they certainly stay busy, busy, busy! Kind of like the kiddos that will read all about them in Busy Barnyard. Sixth in Tricycle Press' Busy board book series, Busy Barnyard takes an up close and personal look at farm animals on-location doing what they do best. In lyrical fashion, the author/photographer team perfectly complement one another to catch the essence of barnyard life. This isn't your typical "cows moo" book either. No, instead the animals romp, kiss, scrub and boss--and there is a little humor also with crossing chickens. I've never met a child that wasn't fascinated with farm animals. This sturdy board book will be a welcome addition to any toddler's library. Armchair Interviews says: Busy Barnyard is a lively look at farm life for the toddling crowd.

Perhaps all due to this book our son's first word is "Moo" We love this whole series and first fell in love with "Busy Doggies" Only complaint is that the only picture of a horse in here is of a sleeping foal but honestly it looks dead. We notice, 13 month old doesn't care

my son, 18 mos, really likes this book. he also likes busy doggies. i plan to purchase more books in this set. good pics, simple text. no regrets.
