Customer Reviews

Although my expectations were too high for *City of Bones*, I have to say that the series has gotten better with every book, leading to a very satisfying *City of Glass* read. Questions get answered; plot points get tied up, and you're left with a happy fuzzy feeling in the end. I really enjoyed the

characters in the books, especially CoG. Each character has really come a long way, and even when I disagreed with a character, I felt that they were completely within character; their personalities drove the plot, rather than a having series of random events they were just responding to. I also love that - with a few exceptions (Malachi, Sebastian) - they were all so multidimensional, shades of gray in a morally ambiguous world. On Jace and Clary - I'd give this a 4/5, mainly because I've always felt a little awkward about their relationship, and it's not just the sibling thing. There were some beautiful and heartbreaking moments - again, back to characterization, I was definitely thinking "That's so Jace!" sometimes - but I also got the feeling that their relationship was unnecessarily drawn out. Maybe it's because I never got a good sense of Clary's relationship to the Lightwoods (early on, Clary saying to Isabelle, "But I thought you liked me!" and then later confronting Isabelle about not liking her, for example). But even though I'm happy with how things ended up, I think Clary and Jace really shined brighter when they were apart in this book, than in their scenes together. On the other hand, some of the "minor" characters were wonderful. Alec and Magnus are a riot ("Your city is under attack...The wards have broken, and the streets are full of demons. And you want to know why I haven't called you?"). Aldertree reminded me of Umbridge.

Every time I finish reading a Mortal Instruments book, I think to myself "Wow, this one was amazing! Definitely my favorite, there is no way the next one can top it. Nope, no way." I guess now that I am on the third installment, I should know better. City of Glass was such a great, fast paced, action paced, and fun read. I mean come on, we get to visit THE CITY OF GLASS! It sounds like such a beautiful place from the descriptions mentioned in books one and two, and I was so excited that we get to travel to this unknown place. I love the introduction of this new character, whose name I will not mention cause of spoilers :P. This character really puts a new perspective on the story, and what he/she will reveal will shock you. I know I couldn't flip through the pages fast enough! I always think that I know how everything will turn out, but Cassandra C. loves to throw those curve balls that keeps me on my toes...and I love it! As far as romance goes, this book is pretty sweet. I love Jace and Clary, and all I want is for them to be together already dangit! I like how Cassandra C. gives us a lot of action in her stories; yet, there are rare moments where we get these truly beautiful and romantic moments that really make me smile...*one of those huge idiot looking grins*. She's never over top, and I like that despite the fact that Clary and Jace truly love one another, they have their own thoughts and worries that does not revolve around the other person 24/7. This book was fantastic! Answering some questions that have been lingering throughout the past two stories, and giving us more questions and situations to ponder over. I really enjoyed City of Glass, I love the

change of scenery and the addition of new and fabulous characters.
