# I Am Number Four: The Lost Files: Rebel Allies (Lorien Legacies: The Lost Files)

## Synopsis

The perfect companion book to the New York Times bestselling I Am Number Four series!! Am Number Four: The Lost Files: Rebel Allies is a collection of three thrilling stories by Pittacus Lore. Originally published as the e-novellas The Fugitive, The Navigator, and The Guard, now, for the first time ever, they are together in one print volume. The Fugitive follows Mark James as he tries to track down Sarah Hart, evade the Mogadorians and the FBI, and discover the identity of the mysterious blogger he knows only as GUARD. The Navigator reveals the truth about the crew of the two Loric spaceships who escaped to Earth and shows what happened to the pilots after they arrived and parted ways with the Garde. The Guard tells the story of the hacker who has been aiding the Lorien survivors from the shadows for years. She's determined to defeat the Mogsâ and she just found her secret weapon. You know the truth about the Mogadorians's invasion of Earth and the Garde who will do anything to defeat themâ yet there is still so much to learn. The stories in Rebel Allies will help you get the answers you seek, but they will not help you stop the coming war. Only the Garde can save our planet. But they are not alone. . . .

## Book Information

## Customer Reviews

I seriously enjoy this series!! And for those that don't know, "The Lost Files" are short "side-stories", that are happening along the same time as the series of The Lorien books. The stories are from other people's perspectives, than those of the Garde in the series. Eventually, all these short stories tie-into the main story books, so it's pretty cool that the author has written these stories so that, me

the reader, has a back story and feels like they already know some of these characters more when they show up in the story! Overall, Very excited for The Fate of Ten!!! Can't wait!!

~|this collection of novellas is actually better than some in the past have been. It tidies up some of the hanging threads left by previous novellas and novels and ought to satisfy most readers. I still don't like the apparent Dulce/Area 51 references~|it's like the author heard the names on some History Channel UFO program and did very little research beyond the names. The fuel/power sources for the ships is poorly thought out/explained as well. New "big story" coming out next month- I'll be getting it.

I am addicted to the Pitticus Lore series. My only problem with it is that the titles are so confusing. I have actually purchased the same books twice, not being able to figure out the reading order of the books. I have seen the movie made about Number Four's dangerous quest to seek his fellow Lorians and it also held up to my expectations.

For those who are totally confused, The Fugitive, The Navigator and The Guard were all COMBINED into ONE book called Rebel Allies. I have to admit that I am one of many that are confused about the order of the books, and I also kind of stopped reading many of them because... well... the story just isn't making a lot of movement. The story is in fact suffering from constipation. With that being said, I will admit to having enjoyed Rebel Allies. I wasn't sure what was really different, and then I realized that this was the first story without all the super powered aliens. (Nope, no super alien powers are present here). Interestingly, it was about another ship that came from Lorien. While there was a child who had legacies, it was interesting seeing another side of Lorien and another side of Mark James, Sarah's ex-boyfriend from Paradise. With another book out in September of this year, I have to wonder if this story is going to ever show why a few alien's with super powers are so important, especially since we can kill the Mogadorians with guns. Anyway, I got this from Overdrive as an audiobook.

Great addition to the Lorian Legacies series! But the 3rd short story in my edition ended in a weird place and then has several other chapters from some of the other books..... Anyone else feel that way? It was fascinating to learn more about their home planet and I had wondered about the pilots. Now I know.

the lost files books always gain my interest. I love the short stories and the "behind the scenes" sort of plots. I've read every lost files book so far and cannot say that I've been disappointed. I've acquired all but the last book in the I am number four series. its been a promising series so far, just wish they didn't change the author after the second book.this books gives you details about GUARD, which is great. I love that they revealed the identity of this character and gave you a more in depth description of her/him. it also continues on to explain more about Mark's plot and how the two characters finally converge. I do hope I get to read more of their story.great read, recommended for sure.

I love these "in-between books" books. They are not central to the plot of the main books but they fill in a ton of questions. I wish more authors followed suit with novellas.

Don't understand why there is no Kindle version for this. I have all the main books and Lost Files purchased here via Kindle. Come on , what's up with that?
