The summer after seventh grade started out fine, but when Alison "Ali," one of Rosewood, Pennsylvania's most popular girls vanished, things changed. While her closest friends (Spencer, Aria, Hanna, and Emily) have all moved on, and are now juniors in high school, she was never seen again. The girls, wanting to move away from the secrets Ali took with her, broke apart, and made new friends. Putting the scandalous past behind them. Spencer began competing non-stop with her

older sister, Melissa, for her parents affections, but one little slip-up, and her good girl image is shattered; Aria moved away to Iceland, but has returned, only to find that everyone she used to know (including the guy she was always crushing on) has stayed the same, stagnant, stuck in one place; Emily has tried to move on, and forget about the feelings she held for Ali, but when a new girl moves into Ali's old room, she must come to terms with the truth; and Hanna, who went from "little piggy" to Paris Hilton-wannabe, has found herself in deep water, being questioned by the police on an almost weekly basis. But now, they must confront their old secrets, and join forces once again, for someone known only as "A" is onto them. Someone who knows things about them that only Ali knew. Someone who gets off on sending them threatening messages. Now the girls are confused, since Ali was never found, how on earth could she be contacting them. She should be dead. She should be on some other plane, millions of miles from them. But maybe...she's not. I have one guilty pleasure. No, it's not chocolate, or sweets. In fact, it has nothing to do with food. It's books about the rich. Their scandalous lives, and the constant shopping they spend most of their time doing.

Imagine you are BFF with the most popular girl in school. Everyone else wants to be you. Of course you love the power you have that so many people are envious of you, but secretly you truly wonder if being her BFF is a blessing or a curse. Now imagine it's the start of the summer between seventh and eighth grade and you and your BFF are celebrating by having your annual summer sleepover. Things don't go quite as planned and the two of you end up fighting and she walks out of your house. The very next morning you hear from her mom and you just know something terrible has happened. Suddenly days turn into weeks and before you know it the summer has ended, school has started and still no word from your BFF. She just simply disappeared off the face of the earth. Although you do not wish her any harm, you have to admit, there's a part of you that's relieved that she's gone. You start to feel freer and less burdened because all the secrets she knows about you, have vanished along with her. Horrible to think, some might say, but if they knew what she knew about you, they might feel exactly the same. This is how it is for Aria, Spencer, Hanna and Emily. Alison, Ali, disappears during their slumber party. After her disappearance, the four friends gradually drift apart until no one can even recall they were once friends. It's now three years later and the teens are about to start their junior year.
